

# Greene County Food Council

A collective impact partnership between OSU Extension  
Greene County and Greene County Public Health

## Vision:

The Greene County Food Council brings people together to share ideas, network, and create a food system that:

1. Allows residents access to healthy, affordable, local food,
2. Promotes business and economic development opportunities around food (production, aggregation, processing, preserving, selling); and,
3. Helps educate and guide people and policy that sustains the system through research, networking and projects.

## Mission:

To bring people together to support and encourage a secure, healthy, and sustainable food system.

## Values:

- **Food Equity & Access** – Ensure all residents have access to affordable, nutritious, and culturally appropriate food.
- **Community Collaboration** – Partner with local organizations, businesses, and residents to strengthen the local food system.
- **Sustainability** – Support sustainable farming practices, food recovery, and waste reduction initiatives.
- **Health & Nutrition** – Promote food education, nutrition awareness, and healthy eating habits.
- **Economic Resilience** – Support local farmers, food producers, and small businesses to strengthen the regional economy.
- **Advocacy & Policy** – Work to influence policies that improve food security and agricultural sustainability.
- **Education & Awareness** – Empower the community through workshops, programs, and outreach efforts related to food systems.

## PROMOTING SUSTAINABLE LOCAL FOOD SYSTEMS

Supporting local farmers enhances  
community health and well-being.

## JOIN OUR COMMUNITY EFFORTS

Together, we can strengthen local food  
networks and reduce food insecurity.

**Public Health**  
Prevent. Promote. Protect.  
**Greene County**
